Philippine, Albay | (63) 920-692-8571 | [linkedin.com/in/cs-ace](https://www.linkedin.com/in/cs-ace)

## EDUCATION

---

**Divine Word College of Legazpi**

*Computer Science*

**Philippines, Albay**

*Graduation Date: Jul 2023*

## PROJECT EXPERIENCE

---

**Tabaco - LGU**

*PHP - Full Stack Developer*

**Tabaco City**

*Aug 2019 - Oct 2019*

- Successfully managed the Tabaco library, keeping track of all borrowed books and their respective borrowing times and dates.
- E-learning modules were developed to help students be productive, with an interactive system that allows users to connect with friends and peers.
- Managed the development of a PHP full stack, ensuring successful interaction between users and the e-learning modules.

**Divine Word College of Legazpi**

*Full stack React Developer*

**Legazpi City**

*Aug 2021 - Oct 2021*

- Developed & implemented a file transferring management system that allows users to transmit files within a 7-day validation period before the links expire, and it has a 5-gigabyte file size to share with anybody who has the links.
- Successfully designed & created an intuitive user interface using Reactjs that can also read PDF files without downloading them, resulting in increased user satisfaction by 35%.
- Optimized front and backend development for enhancing user environment and for fast pacing transferring data, cutting development time by 20%.

**Divine Word College of Legazpi**

*THESIS - PHP Developer*

**Legazpi City**

*Jan 2022 - Oct 2022*

- Developed data visualization for the local government unit's employment and e-commerce administration system, allowing users to engage with both jobs and e-commerce while using the system.
- Utilized a user-friendly interface to make it easy for users to use.
- Enabled users to seek jobs or items and engage with other users.

## CERTIFICATES

---

*Start Date - Finish Date*
